

MINERALS AND ART

Sculpture: Pewter (Tin and Lead)
Bronze (Copper and Tin)
Plaster (Lime from Calcium Carbonate)
Marble
Stone

Pottery & Ceramics: Clay (Kaolinite)
Silica
Pigments (Strontium, Copper, Chromium, Cobalt, etc.)

Painting: Pigments (Strontium, Copper, Chromium, Cobalt, Titanium, etc.)

Music: Brass Instruments (Copper and Zinc)
Guitar, Violin, and Piano Strings (Iron, Titanium, other Metals)
Flutes and Other Instruments' Parts (Chromium, Iron, Silver, etc.)

Carving (Wood or Stone): Hardened Steel Tools (Iron, Titanium, Other Metals)

Jewelry Making: (Gold, Silver, Platinum, Gemstones, Ceramic (Silica) Beads,
Metal Polishing Compounds)

Photography: Developing Chemicals (Silver)

Glass: (Silica)
(Stained: Pigment Metals, Lead/Tin/Antimony Solder)
(Blowing: Pigment Metals, High Temperature Metal Blow Pipes & Tools)
(Etching: Fluorite [Hydrofluoric Acid])
